GET THE BARUDAN MULTI-HEAD ADVANTAGE

MULTI-HEAD

EMBROIDERY MACHINES

V-Series 2 to 8 Heads

Heavy Duty Support Arms

Because our tubular arms are larger & stronger than the competition, you can expect higher quality results from a Barudan. The elimination of sagging & positive indexing of the frame to the support arm ensures perfect registration at high speeds.

Barudan Framing System

Barudan embroidery starts with our superior framing system. Our sturdy double height frames hold your garments tightly and securely. Allows for quick and easy framing with less operator effort.

Quick Change Artist

Switch from caps to tubular garments to flat goods in a matter of minutes. No tools are needed, no needle plate replacements, pantograph or frame adjustments either. You'll be sewing in no time with a Barudan.

Wide Variety Of Frames & Accessories

Advantage EX Cap Frame
12cm Round Frame (4½ in.)
15cm Round Frames (5¾ in.)
300x290mm Oblong Frames (11¾ x 11 in.)

Barudan COMPACT, RELIABLE & SUPERIOR STITCHING

POWERFUL & COMPACT

Heavy-duty, steel construction provides stability and minimum vibration resulting in superior stitch quality. Designed to be compact and powerful, our machines will fit through most standard doors so you can set up shop almost anywhere.

MULTI-HEAD STANDARD FEATURES:

- Sewing speeds up to 1,000 stitches per minute
- 15 needles
- Large sewing fields: 450X520 mm (approximately 17¾ x 20½ inches)
- Curved Radius Cylinder Arm - Provides a smooth, even surface for stitching on caps.
- Quick Changeover System - No tools required to change from sewing caps to flats.
- Adjustable Table - Quick and easy conversion between finished caps, tubular & flat garments.
- Exclusive Electronic Thread Clamps - Keeps thread taut and eliminates false thread breaks & pull outs.
- V-Series Color Automat with Icon Based operation menus specifically designed for embroidery:
 - 30 Memory locations, 10 million stitch internal memory. Designs can be loaded from a CF card or networked from your computer.
 - Timeline - Shows sewing progress, including color changes & estimated remaining sewing time.
 - Visual Pattern Preview - Shows sewing progress, color image of design before sewing & progress as it sews out.
 - Design Outline Trace with Laser Pointer - Determines if the pattern will sew within the frame.

OPTIONAL NETWORKING SOFTWARE:

LEM Jr.

With Barudan's LEM Jr., you can connect more machines and automate the download process. Directly connect a computer to your embroidery machinery with LEM Jr.

LEM Pro II

Barudan's LEM Pro II gives you the ability to network multiple machines and seamlessly enhance production. LEM Pro II allows you to stop using CF Cards & floppy disks (on older machines), automate the download process, connect more machines, plus generate production reports.

Design File Server

Barudan's Design File Server is an easy to use networking program that connects "V" or "D" series Barudan machines to a computer.

Designs can be downloaded directly from a folder on a computer hard drive, eliminating the need to carry disks and CF cards to and from the machine.

Design File Server gives you the power to connect up to 8 single-head or multi-head machines.

SIMPLE OPERATION

Everything with the V-Series is simple. Executing the machine's variety of functions is intuitive with easily recognized icons.

RADIUS CYLINDER ARM

Our unique cylinder arm hugs the inside curve of the cap frame and provides a smooth, even surface for unbeatable stitching on caps. Plus, no need to change throat plates between jobs.

POSITIVE NEEDLE DRIVE

Barudan's exclusive positive needle drive ensures quality embroidery on all types of garments including thicker items like leather, karate belts and designs with puffy foam.

BARUDAN'S 5-3-2 WARRANTY

5 years main motor
3 years electronic parts/boards
2 years all remaining parts
[Excluding Consumables]
