

QUALITY & POWER

Does Come in a Small Package

Introducing **PRO II**

from
Barudan

PRO II KEY ADVANTAGES:

Servo Motor Driven

- Increased strength in a smaller size.
- Faster and quieter pantograph movement at high sewing speeds.

Production Speeds up to 1,300 SPM

- Production improved by 14 to 30 percent.
- Production speeds up to 1,000 SPM on caps.

Compact Frame

- One piece Cast Aluminum frame for strength and durability.
- Portable at 170 lbs.
- Large sewing field, 330 x 500 mm.

BEVT-Z1501CB II

STANDARD FEATURES:

- Quality construction, super-quiet operation & easy to maintain.
- Automatic detector for both top & bobbin thread breaks.
- Barudan patented Solenoid driven thread clamps reduce pullouts & thread breaks.
- Radius cylinder arm for the highest stitch quality on finished caps.
- VT Automat with user-friendly icon-based machine operation and functions like Outline Perimeter Trace to improve productivity.
- 10 million stitch capacity, 30 memory locations.
- Compact Flash Drive up to 2 gigs or direct connect to computer.
- No tools needed for quick changeover from tubular to caps and flat garments.
- Laser Pointer assures proper placement and needle position to prevent accidentally hitting the hoop.
- Barudan's **5-3-2** Warranty
 - 5 years on main motor
 - 3 years on electronic parts/boards
 - 2 years on all remaining parts (excluding consumables)
