Total of 100 high quality fonts & 30 Lettering templates
More fonts & frames to help you produce quality lettering effortlessly.

More fonts available at www.embmarketplace.com

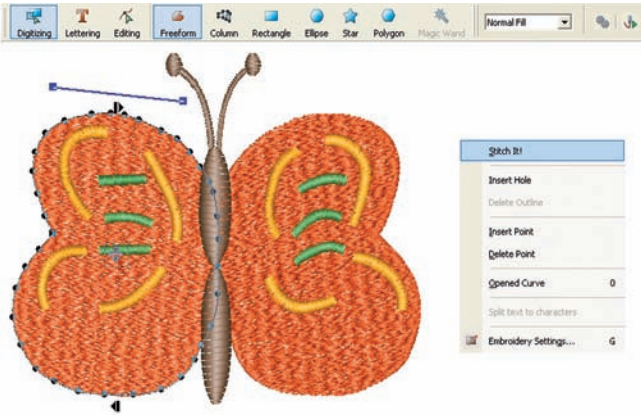

AutoPunch – Auto Digitizing

Automatically create designs from vector graphic images.

Standard Digitizing

Use the Normal Fill, Column, Satin line, Manual Stitches etc. digitizing tools to create controlled, detailed designs.

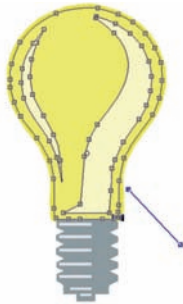

Editing and Stitch Edit

Everything digitized can be easily edited and changed. With Stitch Edit, edit even the smallest detail. Change machine codes for existing stitch files.

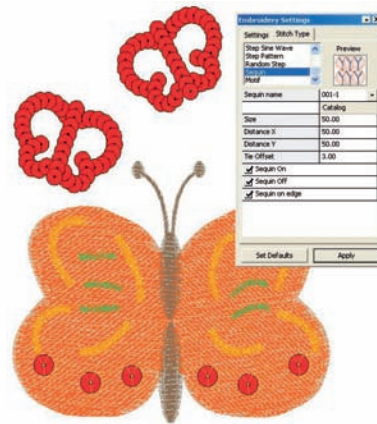

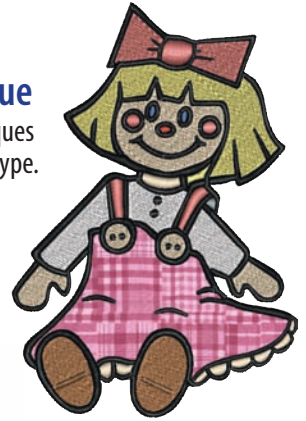

Magic Wand

Convert any area of an image into stitches.

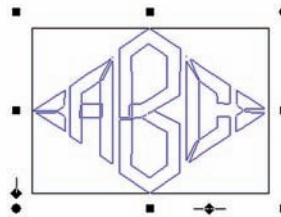

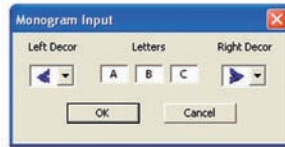

Applique

Easy creation of appliques with the special Applique stitch type.

Sequin

Add a whole new dimension to your embroidery with the sequin feature.

Monogram Input

Take advantage of the high quality Monogram fonts.

Name Drop

Add a list of names to sew with a logo. A different name will sew for each garment.

Hyperfont

Convert any font to Embroidery!

TrueType® Font Conversions

Easily convert Windows® True Type® & Outline Graphic fonts into embroidery fonts
