Right from the start.

6-Head - BEKY-S1506CII

4-Head - BEKY-S1504CII

8-Head - BEKY-S1508CII

15-Head - BEKS-S1515C

POWERFUL & COMPACT

Heavy-duty, steel construction provides stability and minimum vibration resulting in superior stitch quality. Designed to be compact and powerful, our machines will fit through most standard doors so you can set up shop almost anywhere.

NEW KS/KY AUTOMAT

Everything with the K-Series is simple. Executing the intuitive icons with the touch screen gives quick access to functions.

RADIUS CYLINDER ARM

Our unique cylinder arm hugs the inside curve of the cap frame and provides a smooth, even surface for unbeatable stitching on caps. Plus, no need to change throat plates between jobs.

POSITIVE NEEDLE DRIVE

Barudan's exclusive positive needle drive ensures quality embroidery on all types of garments including thicker items like leather, karate belts and designs with puffy foam.

5-3-2 WARRANTY

5 years main motor
3 years electronic parts/boards
2 years all remaining parts, excluding consumables.

Introducing Barudan's newest K Series embroidery machines. The K Series is available in 2 - 56 head machines. All machines have the same advanced features and functions listed below. Machine dimensions and weights are listed on the back of this brochure.

K SERIES MULTI-HEAD STANDARD FEATURES:

- 15 needles
- New SH Sewing Head (SmartHead technology) for higher performance and increased durability
- Servo motors for increased production and more power
- Easier Lubrication - fewer oiling points, easier access
- Large sewing field: 450X520mm (approx. 17½ x 20¼ in)
- Curved Radius Cylinder Arm - Best for stitching caps
- Quick Changeover System - No tools required to change from sewing caps to flats
- Exclusive Electronic Thread Clamps - Keeps thread taut and eliminates false thread breaks & pull outs
- K-Series Color Automat Features
 - 100 Memory locations, 70 million stitch memory
 - 10.4" Larger Color LCD Display
 - Higher Resolution 800x600
- Touch Screen for Easy operation
- User-friendly Icons with Text
- Stitch Processing (DSP)
- Hoop Frame Outlines & Centering Feature
- Visual Pattern Preview in two sizes
- Design Outline Trace with Laser Pointer
- LAN Connector for networking software
- COM Port for DFS and software connections
- 2 USB Ports - USB memory stick, barcode scanner, etc.
- Remote Jog Controller Port
- Shortcuts - Customize most-used icons to save time
- Dual Tasking - Load/teach next design while sewing
- Help files - Error messages with troubleshooting
- Name Drop - Separates names in a multiple name design for viewing and sewing purposes

OPTIONAL NETWORKING SOFTWARE:

Eliminate the need to physically carry your designs out to your machine - no more USB, or floppy disks, using one of these Barudan networking solutions:

Design File Server

Barudan's Design File Server is an easy-to-use networking program that connects Barudan machines to a computer. Designs can be downloaded directly from your computer.

Design File Server gives you the ability to connect up to 9 single-head or multi-head machines. 8 COM connections and 1 LAN connection.

LEM Jr.

With Barudan's LEM Jr., you can connect up to 100 machines and automate the download process, including Barcodes. Uses LAN networking.

LEM Pro II

Barudan's LEM Pro II gives you the same features as LEM Jr., but also adds web production reports and machine status views via Web Browser.
