

Barudan
America, Inc.

World's Best Since 1959
Multi-Head Embroidery Machines

Barudan Global Network

OUR MISSION STATEMENT:

“Barudan is dedicated to research and development of producing products with superior value and the highest quality customer service for worldwide distribution benefiting all involved.”

BARUDAN HISTORY

In 1959, Yoshio Shibata, the founder and Chairman of Barudan Co., Ltd., developed the first multi-head embroidery machine in Japan. This machine pioneered the beginning of the modern embroidery machine industry. Since then, Barudan has been a world-wide leader in embroidery, and today our products are used in over 100 countries. Our goal is to grow with our valued customers, as stated in our corporate motto, “Work In Harmony”.

Barudan

QUALITY & POWER - SUPERIOR STITCH QUALITY

6-Head - BEKY-S1506CII

4-Head - BEKY-S1504CII

8-Head - BEKY-S1508CII

POWERFUL & COMPACT

Heavy-duty, steel construction provides stability and minimum vibration resulting in superior stitch quality. Designed to be compact and powerful, our machines will fit through most standard doors so you can set up shop almost anywhere.

15-Head - BEKS-S1515C

*Machines 12 head and larger feature new tensioners and radius cylinder arm.

Introducing Barudan's newest K Series embroidery machines. The K Series is available in 2 - 56 head machines.

All machines have the same advanced features and functions listed below.

K SERIES MULTI-HEAD STANDARD FEATURES:

- 15 needles
- K-Series Touch Screen Automat
- New SH Sewing Head (SmartHead technology) for higher performance and increased durability
- Servo motors for increased production and more power
- New MK8 trimmer system along with smaller diameter cylinder arm allows for sewing deeper into confined areas
- New tensioner system provides better and easier thread tensioning and improved thread break accuracy
- Maximum speed on flats, 1,100 stitches per minute; maximum speed on caps, 1000 stitches per minute
- Easier Lubrication - fewer oiling points, easier access
- Choose between a Small or Large sewing field 6 and 8 head: 450X380 mm or 450X520 mm (approx. 17½ x 14¾" and 17½ x 20¾")
- Design Outline Trace with Laser Pointer
- Exclusive Electronic Thread Clamps - Keeps thread taut and eliminates false thread breaks & pull outs

ADVANCED TENSIONER SYSTEM

KS/KY AUTOMAT

K-Series Color Automat Features

- 10.4" Larger Color LCD Touch Screen Display
- 100 Memory locations, 70 million stitch memory
- Stitch Processing (DSP)
- Hoop Frame Outlines & Centering Feature
- Design Outline Trace with Laser Pointer
- LAN Connector for networking software
- USB Port - USB flash drive, barcode scanner, etc.
- Dual Tasking - Load/teach next design while sewing
- Help files - Error messages with troubleshooting
- Name Drop - Separates names in a multiple name design for viewing and sewing purposes

QUICK CHANGE CAP SYSTEM

Switch from caps to tubular garments to flat goods in a matter of minutes. No tools are needed, no needle plate replacements, pantograph or frame adjustments either. You'll be sewing in no time with a Barudan.

SMALL CYLINDER ARM

The new MK8 trimmer system combined with the smaller diameter cylinder arm allows for sewing deeper into confined areas such as shirt pockets, socks, and sleeves.

POSITIVE NEEDLE DRIVE

Barudan's exclusive positive needle drive ensures quality embroidery on all types of garments including thicker items like leather, karate belts and designs with puffy foam.

MACHINE DIMENSIONS:

MODEL		Dimensions LxWxH mm	Dimensions LxWxH Inches	Weight kg	Weight lbs
2-Head	BEKY-S1502CII	2045Lx1245Wx1690H mm	80.5Lx49Wx67H in	530 kg	1168 lbs
4-Head	BEKY-S1504CII	3085Lx1245Wx1690H mm	121.5Lx49Wx67H in	783 kg	1726 lbs
6-Head	BEKY-S1506CII/380	3145Lx1245Wx1690H mm	124Lx49Wx67H in	688 kg	1518 lbs

NETWORKING

All new Barudan K Series machines are network ready. We offer BNET Workgroup 100 and BNET Pro networking software. BNET allow you to directly connect your computer to more machines and automate the downloading of embroidery files.

BNET Workgroup 100

- Connect up to 100 Barudan embroidery machines via LAN connection (K, X, V Series machines)
- Eliminates CF Cards and USB drives
- Connects to built-in LAN port on X and K Series machines (optional LAN cards are available for Barudan V Series)
- Faster design download speeds
- Allows the use of a barcode scanner
- File Storage can be configured to search multiple folders and sub-folders
- Reads most popular machine formats, including FDR, DST, PRJ, Happy, ZSK and others

BNET Pro

Includes all of the same features as BNET Workgroup 100, plus:

- Maintenance and Production Reporting - Produces 4 different report types to manage production capability
- View and run machine data reports with Web Page Reports
- Report Export and Print - Reports can be directly exported to Microsoft Excel for further analysis
 - *Product Time Report - Summarizes the production time spent on each run*
 - *Thread Break Report - Shows thread breaks by machine or stitch file/pattern allowing analysis of design digitizing or machine problems*
 - *Product Count Report - Records how many units are produced*
 - *Machine Stoppage Report - Shows all machine errors for troubleshooting and analysis*

THE BARUDAN DIFFERENCE

While all Barudan machines are known for reliability and longevity, the 5-3-2 warranty also gives you peace of mind. With regular service by a Barudan Technician, your warranty covers:

- 5 years on the Main Motor
- 3 years on Electronic parts and boards
- 2 years on all remaining parts (excluding consumables and accessories)
