

Introducing the New L-Series Automat

Barudan's new L-Series* automat delivers a smarter, faster and more intuitive embroidery experience. Developed with productivity in mind, the upgraded interface and expanded storage ensures operators spend less time setting up jobs—and more time sewing.

What's New:

- Larger 12.1-inch color LCD touch screen display with a sharper 1280x800 resolution
- Expanded memory: store up to 300 designs (up to 300 million stitches)
- Streamlined on-screen functions for faster, more intuitive operation
- Quicker design transfer speed
- Additional Shortcut Groups: increased from 8 to 12 for quicker access to key functions
- Three USB ports are standard: USB Flash drive, barcode scanner, etc.
- Stitch Processing (DSP) adds/deletes stitches when resizing designs
- Hoop Frame Outlines for added accuracy and design placement
- Dual Tasking – Load/prepare next design while machine is sewing

The L-Series automat is network ready via LAN ethernet connection. Optional B-NET networking software is required.

*L-Series automat is standard on BELY 2-head and larger multi-head machines.
